By Telegraph to The Times.

MADRID, Nov. 5.—(Copyrighted 1893,

by the Associated Press.) The terrible

disaster which wrecked the port of

Santander and destroyed hundreds of

lives has sent a thrill of horror through-

out Spain. Every piece of news which

reaches Madrid not only confirms the

most sensational reports but pictures

the disaster in more vivid colors than

hitherto. The story of the great disas-

ter as gathered for the Associated Press

is as follows:

The Cabo Machichaco, a Spanish

steamship belonging to Bilbao, caught

fire about 3 o'clock on Friday afternoon.

The origin of the fire is unknown but

it was soon beyond the control of the

ship's crew. The local fire department

and a detachment of the civic guard

were sent to the scene, and the leading

municipal authorities aided in the ef-

forts to save the steamer.

Meantime, thousands of people

crowded to the quay and thronged the

promenades contiguous to it. The fire

quickly ignited the petroleum, which

formed a part of the cargo. Twenty

cases of dynamite which were regis-

tered on the ship's papers were carried

ashore, but the ship also had on board

40 cases more which did not appear on

the papers, and of which the authori-

ties had no knowledge.

About 4:30 p.m., the ship's boilers

burst with a terrific report, and, soon

after, there was another terrible de-

monstration. The steamer seemed to

open in half, sending a mass of flaming

iron, burning wood, blackened timbers

and scorched beams, which soon after, fell

upon neighboring houses, scattering

death and destruction.

Wherever it crashed downward, the

explosive shot tons of iron ore, which

compounded the disaster. The fire

spread with a rapidity which was

astonishing. In a few minutes the

entire harbor was a mass of flames,

and the falling of this horrible

mass of iron and steel, which was

described as being like a great

avalanche of fire, caused a great

number of buildings, causing a

frightful panic.

The force of exploding dynamite

caused such a concussion that it actu-

ally sank hundreds of small crafts in

the harbor, in addition to setting fire

to a large number of other vessels, and

starting conflagrations upon several of

the larger ships, including the Alfonso

XII, which vessel, as already cabled to

the Associated Press, caught fire so

suddenly and burned so fiercely that

forty of her crew lost their lives on

board, and the vessel was completely

destroyed. The fire spread with a

rapidity which was astonishing. In a

few minutes the entire harbor was a

mass of flames, and the falling of this

horrible mass of iron and steel, which

to the fact that telegraphic and postal

communication was not renewed.

Santander was lately among the

prosperous towns in Spain, but the

aster which has overtaken it will

many years to repair. The whole coun-

try is indignant at the criminal conduct

of the captain and the crew of the Cabo

Machichaco, and the local authorities

of those who shipped the contraband

480 cases of dynamite.

The general opinion is that the gov-

ernment must take immediate steps to

punish the people who shipped the

dynamite, as the death of the captain

and crew of the steamer is but poor

compensation to the thousands of vic-

tims and for the destruction caused by

their criminality.

Brazilians Responsible for the Deaths of

British Seamen.

LONDON, Nov. 5.—(By Cable and As-

sociated Press.) Official confirmation

is received hereby the naval authorities

of the death of two seamen and two

marines and the injury of five others

from the British warships Bengale,

Racer and Sirius, near Rio de Janeiro.

It appears the British vessels named

landed a party near Rio de Janeiro in

order to obtain a supply of sand for

holystoning the decks. During their

stay ashore, the British party ap-

proached an old Brazilian government

powder-magazine, which was protected

by a detachment of President Peixoto's

soldiers.

The latter, seeing a number of sea-

men digging, believed that they be-

longed to the rebel warships, and, con-

sequently, acting under the orders of

the Brazilian officers, blew up the

powder-magazine, and killed and in-

jured the British soldiers referred to.

That Thanksgiving Dinner—They Veterans Will Have Turkey, and Cranberry Sauce—A Talk With Col. Treichel.

The day was cold and the sun was raw. Clouds hid the sun from dawn to dusk, and a dreary wind blew from the mountains, bringing a chill to the face and at times, a patch of blue sky was seen, but as one approached toward the conditions became decidedly less cheerful.

A reporter visited the Soldiers Home at Santa Monica yesterday, and witnessed the beginning of the winter for the veterans residing there. All over the grounds old and decrepit inmates, buried in the folds of civilian overcoats and army capes, were seen walking to and fro for no other purpose than to keep their waning blood in circulation. Some had shaggy heads, some wore the moist and chilling breezes could not penetrate, while others worked off the cold by a close proximity to the outside walls of the boiler-house. The defenders of their country are truly left in the cold by a parsimonious and cheese-paring Congress, and the coming regular session an urgency deficiency appropriation bill is rushed through. This at present seems to be only a paper remedy, and the artificial warmth now needed to prevent the stagnation of blood that once bounded through pulsing veins, and in many cases was shed for the honor of the nation.

Col. Treichel, the governor of the home, was seen at his house. The colonel was confined to his room, and received the reporter hesitantly, and willingly imparted the information desired. "Yes," he replied to a question, "the appropriation is very short. I have not the figures at hand, but I can only speak in a general way. Congress made its appropriation for the maintenance of the home, and not only the Pacific branch of the army, but the others in various parts of the Union. These appropriations are made for the fiscal year, and usually expire every June 30. Congress has not yet cut down the estimates for this year, and my position as governor requires me to take action accordingly."

"You, since the first of the fiscal year we have been very guarded in allowing an increase of money, and I have a month ago we have stopped admissions entirely. We have been compelled to turn away the homeless, and the much against our will, but the exigencies of the case demanded such action. There are at present in this branch about 150 men, and the amount 150 are out on leave, making, all told, about 1200. If there is no increase in numbers we may be able to pull through the winter, but if the amount allowed us. That is, I except one item. You see the appropriation is made under eight distinct heads, and the money appropriated for each cannot, according to law, be used for another. Certain amounts are named for current expenses, subsistence, clothing, household, hospital, and other construction and farming. We are keeping within all of them except that designated for household, in which is included the fuel and light bill. This amount is getting alarmingly low, and we are compelled to economize in this direction. We use some coal, but the boilers are heated by oil, and the agency of crude petroleum, and most of the heat disseminated through the buildings is by steam. With a price of 70 gallons of oil at 5 cents per gallon, the expense would reach, with incinerals, about \$40 per diem. At present the only fuel and light bill in the hospital and in the kitchen. No warmth can be given to the barracks, and the prospect for the winter is certainly not pleasant."

When asked if this distressing state of affairs had been brought to the notice of the board of managers, Col. Treichel answered that it had been plainly stated, but no aid could be rendered from that direction, as the board of managers did not have it in their power to order the expenditure of money in the appropriation for any other than the designated purposes. Similar conditions with regard to deficiency in funds for fuel and light exist in other branches, and when the governor of any such home makes complaint he can only be answered in one way, and that is that he must regulate his administration in accordance with the amount placed at his disposal.

Col. Treichel, when he estimated the amount needed for the fiscal year for the fiscal year, asked for \$44,728.19. The board of managers reduced this sum, and recommended to Congress that \$30,000 be appropriated for the year. The amount of the reduction was \$14,728.19, or less than half of the total. Treichel estimated that the amount of the reduction toward light and fuel is, therefore, entirely too small to carry out its intended purpose.

When asked regarding the Thanksgiving turkey dinner, Col. Treichel remarked: "This is a delicate subject. We had intended to have an excellent dinner of young pork with apple sauce and vegetables. The shoats are in fine condition now, and would make a fine eating on Thanksgiving day. But since turkeys have been brought so prominently forward we have made arrangements to have a turkey dinner, both Thanksgiving and Christmas. For the last five years we have always had turkey Thanksgiving and Christmas and sometimes on New Year's day. So far as arranged, the bill of fare for the coming Thanksgiving day will be roast turkey, with cranberry sauce, mashed potatoes, onions, pickles, mince pie and chestnut cake. We may add to this as circumstances demand. Of course," he replied, "the coldest, and we ought to rather refuse a gift of extra turkeys if offered in the spirit of free-hearted Americans are wanted, but the men here are just as proud, and rightly so, when they first went into battle. The government has given them to understand that their residence here is an honor to the country they defended and a right they possess. So you see that if they believed the offering was made in the sense of a charity gift they might feel some resentment."

Again the reporter sought the open air, and as the shades of night were falling, he observed that the solitary walks of the veterans had increased in speed as the air became cooler. Coats were drawn closer and hunched shoulders carried heads that huddled lower within the brims of their hats. The change of sticks and crutches with a firmer grip, and hats were drawn down over eyes dimmed with age and

The details of the suicide of C. U. Mueller, brief as they are, which was made in yesterday's Times, have been obtained. Mueller was quite an old man, and lived up in Mint Canyon, about fourteen miles from Santa Monica. He killed himself in his little cabin, by placing the muzzle of a breech-loading shotgun in his mouth and firing it by means of a stick, blowing his head to pieces.

Corner Cates was notified of the suicide Saturday afternoon, and at once started for the place. Reaching the cabin, he found the body of Mueller, and when he asked if he knew anything about the man's death, he replied that Mueller had died of heart disease. When the coroner arrived at the cabin, he found the body of Mueller, and when he asked if he knew anything about the man's death, he replied that Mueller had died of heart disease.

By Telegram to The Times. NEW YORK, Nov. 5.—(By the Associated Press.) Agreements were signed tonight by Billy Thompson, representing Charley Mitchell, and W. A. Brady for J. J. Corbett, which will probably have the effect of bringing off the big international fight at the Olympic Club at New Orleans.

The principals met in consultation with the sporting editor of the World today to discuss a letter received from Secretary Ross of the Olympic Club, enclosing the articles of agreement. After the conference articles of almost identical tenor were signed on behalf of the principals. They call for a fight any week day after December 18 for a purse of \$20,000, all of which shall be to the winner.

CHICAGO, Nov. 5.—(By the Associated Press.) Three men are under arrest, suspected of complicity in the theft of the silver brick and precious stones from the Idaho section of the Mines and Mining building. They are A. T. Barber, janitor of the section, John Burgess and Tom Brennan. The men were trapped through their own efforts to sell portions of the brick to a local jewelry firm. A portion of the brick and some opals were recovered.

John Mack, a Waiter, Gets Badly Cut Last Night.

At 12:30 o'clock last night a cutting attack took place on Spring street opposite the Hotel Cecil. In the fight John Mack came out second best. Mack, together with several other waiters, had been doing the town, and in the course of his perambulations imbibed considerable whiskey. When the party reached Second street, Mack and another man became quarrelsome, and the latter, armed with a knife, cut Mack, cutting a deep gash in his left arm, one across the right cheek and another slight one in the right arm.

Officers Dugan arrived on the scene just after the men had been separated, and he placed James T. Turner under arrest. Mack was taken to the receiving hospital, where Police Surgeon Bryant dressed his wounds, the first of which is quite serious. As there was blood on Turner's necktie and shirt, sleeve, and trousers, he was arrested, and he was responsible for the cutting.

RUNNING FIGHT.

The Oliphant Bandits are Over-taken.

They Escape, However, Abandoning Several of Their Horses to a Pose-Bloodhounds Close Upon Them—A Fresh Suspect.

By Telegram to The Times. BATESVILLE (Ark.) Nov. 5.—(By the Associated Press.) This town has been in the midst of the most intense excitement all day. The two Oliphant train-robbers captured yesterday are in jail here. The posse in pursuit of the four men still at large came upon them at an early hour this morning, two miles from Jamestown, and a lively running fight ensued.

The bandits were forced to abandon six of their horses and take to their heels. They also abandoned several overcoats, a lot of jewelry, and a money bag. A telephone message was received from Jamestown, stating that bloodhounds were within rifle-shot of the robbers, and that they were firing at the horses.

At 5 p.m. another skirmish took place between the opposing parties, but no one was hurt. The bandits are making for White River bottoms on foot, and are hiding in the caves along the banks of that stream. Hundreds of men are out, and it is thought to be impossible for the bandits to escape. Jack W. Harkerty, who is suspected of being more than a robbery, was put under arrest today. Fresh bloodhounds are on the way here from Memphis, and will be put on the track in the morning.

Young Women's Christian Association.

The gospel meetings yesterday afternoon had the usual large attendance.

The service was opened by song, including a ladies' quartette, and the meeting was led by Mrs. P. C. Francis. The subject was "The Christian's Strength." She said:

"Those who do the work of God must have strength from some source. How shall they gain it? Not from the counsel of the ungodly. Not from the churches of worship, although they help. Real strength must come from the Holy Spirit. As the plant or tree set by a spring of water will draw life and refreshment from the moisture, so the life that is lived near to Christ will draw life and refreshment from the fruit that the world will see. She earnestly admonished the workers in the association that this must be the association that will draw life and refreshment from the fruit that the world will see."

Miss Morse, general secretary, spoke of the power and attraction of the lowliness of Christ's life, and of great interest to all present. This evening the regular Bible-class will be held.

"The City of the Golden West."

Stanford Parlor, No. 16, N.S.G.W. of San Francisco, has sent out a copy of a letter addressed to the letter to the managers of the Midwinter Fair, asking that the grounds of the exposition shall be named "The City of the Golden West." The letter is signed by the ladies of the Native Sons and Daughters of the Golden West, and is a growing and growing organization. The Native Sons are rapidly increasing the number of their members, and are now in the process of organizing a "City of the Golden West" to be a compliment to the children, and one most true to the situation.

This is the Golden State. The entrance to our harbor is known to the world as the Golden Gate, and our park that we take so much pride in is also golden. In harmony with the name, I would have all the buildings surrounding the fair, and do everything possible to carry out the idea that this is "The City of the Golden West." The Native Sons and Daughters all over the State are requested to co-operate in the matter, and have the name suggested adopted, if such a thing is possible.

Mr. Howell's Mother.

Mr. Howell's mother, whose maiden name was Dean, was of Irish and German parentage, writes Prof. H. Boyesen in a delightful sketch of her. Howell, under the title of "The November Ladies' Home Journal," the father was of Irish and Catholic extraction, but her mother was a Pennsylvania German, and was full of the author's early religious training.

The matter has been receiving considerable attention at the hands of the Board of Public Works for some time past, and will be brought up at the Council meeting today.

The parties who are now moving in the matter appear to be in earnest, and say they intend to push the matter to a conclusion. Attorneys have been retained, and the legal questions involved are being put in shape. J. B. Mitchell, Esq., has prepared a full history of the case for the use of the City Council, from which it appears that there is no question but what Figueroa street was laid out on the old maps, and that the property has been sold to the city. The case is an interesting one, and will be watched with a great deal of interest.

Rifle Shooting.

The annual 200-yard rifle shoot of the Turner Rifle Club, took place yesterday at their range near East Los Angeles reservoir, and the following scores were made out of a possible 250 points:

Joe Singer, 199; William Frick, 189; A. Widmyer, 183; and William Guenther, 183.

The regular monthly shoot resulted as follows:

A. Widmyer, 197; William Guenther, 183; C. D. Platt, 188.

BUSY TIMES.

Midwinter Fair Managers Despatched at Chicago.

CHICAGO, Nov. 5.—(By the Associated Press.) The busiest place at the fair grounds these days is the California building. M. H. de Young, director-general of the California Midwinter Fair, and other officials of that enterprise make the California building their headquarters, and from morning until night there is a throng of callers there. Most of them are exhibitors, who will move their stock from here direct to San Francisco.

The California managers have profited by the experience of the World's Columbian Exposition officials. They have secured half-rates from all railroads for exhibitors, and have got the railroads to agree to reduce fares for visitors from the opening of the exposition. Another move on the part of the Midwinter people, in the judgment of the exposition authorities, is charging for space occupied by exhibitors. Had the World's Fair done this, it would have cost many exhibitors, and the California managers are obliged to ask for another extension of territory.

The scheme of the Midwinter managers is to have the California best of the exhibits that attracted great attention and won high awards here.

Mr. Howell's Mother.

Mr. Howell's mother, whose maiden name was Dean, was of Irish and German parentage, writes Prof. H. Boyesen in a delightful sketch of her. Howell, under the title of "The November Ladies' Home Journal," the father was of Irish and Catholic extraction, but her mother was a Pennsylvania German, and was full of the author's early religious training.

The matter has been receiving considerable attention at the hands of the Board of Public Works for some time past, and will be brought up at the Council meeting today.

The parties who are now moving in the matter appear to be in earnest, and say they intend to push the matter to a conclusion. Attorneys have been retained, and the legal questions involved are being put in shape. J. B. Mitchell, Esq., has prepared a full history of the case for the use of the City Council, from which it appears that there is no question but what Figueroa street was laid out on the old maps, and that the property has been sold to the city. The case is an interesting one, and will be watched with a great deal of interest.

Rifle Shooting.

The annual 200-yard rifle shoot of the Turner Rifle Club, took place yesterday at their range near East Los Angeles reservoir, and the following scores were made out of a possible 250 points:

Joe Singer, 199; William Frick, 189; A. Widmyer, 183; and William Guenther, 183.

The regular monthly shoot resulted as follows:

A. Widmyer, 197; William Guenther, 183; C. D. Platt, 188.

SPORTING NEWS.

Los Angeles Athletic Club's Field Day.

Much Interest Manifested in the Event. Some of Those Who Will Take Part—Great Turf Event—Sporting Notes.

There is a great deal of interest manifested by all lovers of sport in the Los Angeles Athletic Club's field day, to be held on Thanksgiving day, at Athletic Park. A large crowd of wheelmen, the scene at Athletic Park, yesterday morning was watched by a large crowd of spectators, who, apparently, took a keen interest in the sport as the athletes themselves.

From the present outlook, all the clubs in and about Los Angeles will be represented, and no doubt, the Olympic Club of San Francisco will send a delegation to retrieve, if possible, its losses at the last field day.

Fox of Riverside is riding in special form, and may be relied upon to do some record smashing. McAlester, Kitchin are also showing up well, and will be hard to beat. Among the sprinters are "Invincible" Howard and "Big Jim" Ryan for the mile race. Stewart, a new candidate for honors on the cinder path, is also to be seen. He is a speedy worker, and may prove a dangerous competitor. The lacrosse players of the Los Angeles team are doing some good work, and number 10, should be able to put up a strong game.

GREAT TURF EVENT.

The four-cornered race suggested in the Chronicle, between Racine, Flambeau, Rudolph and Morello, has been decided with considerable enthusiasm at the Bay District track and at all public places that horsemen and interested parties congregate. Not only will it be the greatest race ever decided over the Francisco track, but it would rank with any that has taken place this year in America. Of course, such a contest could not very well take place for a month, as Morello and Rudolph would require all that time to get properly acclimated, and the other two horses, who are worse for his long trip across the continent. However, the directors of the Bloodhorse Association should not lose any time in making such a race, and so that the proper interest could be worked up over such a turf event.

"LUCKY" WILL "STAY IN." McDaniels will not take charge of the Baldwin string until the first of the week, when he will probably go to Santa Anita to look after the youngsters which are now doing their first work on the home track, says the Examiner. The Eastern papers are telling their annual story of McDaniels' intention to quit the thoroughbred business. The man whom the world calls "Lucky" has made too much money out of his early life in the business while the prospect of future winnings is with him. He thinks he will do more with the Emperor of Norfolk than he can with the other horses. He will be back on the Eastern track next season with another good string.

SPORTING NOTES.

Joe Ellingsworth, the ex-amateur pugilist, has issued a challenge to fight on the 14th of the month.

The annual meeting of the American Turf Congress will be held at the Burnet House, Cincinnati, O., Wednesday, November 8.

E. K. Benchley, the general president of the Southern California Kennel Club, opened the duck-shooting campaign one day last week, the day's sport resulting in a bag of thirty-five ducks.

It is stated that the Stewart and Binney boat, the Pilgrim, built for the defense of the America's cup, will be sold and turned into a steam yacht in the city. Its builders will leave heavily on the yacht.

CURSE OF OPIUM IN CHINA.

People Who Become Confirmed Smokers Live Ten Years on an Average.

(New York Herald.) "Seven-tenths of the people of China are opium smokers, and 2,000,000 of them die annually from its effects," said a Chinese missionary recently, who has spent twenty-two years of his life in the Flowery Kingdom.

"This habit is rapidly growing," he went on. "It is confined to no class or sex, but men and women, officials and laborers, all are addicted to the use of the drug. A confirmed habit of smoking becomes a confirmed habit, and a Chinese coolie he knows that he is about ten years to live. That said, they take no notice of it. It is easier to reform a sot in the gutter, than an opium smoker. Place them behind bars, if you give them over to being imprisoned a short time they begin to beg and plead for opium. They rave like maniacs, and their sufferings are horrible to behold. They act like wild men."

"The opium vice is ruining China. The people know it and the government knows it, but they take no action. In twenty-two years it has increased 50 per cent. Fertile fields that were once used in the cultivation of rice are now devoted to the growing of opium. In Northern China, where the terrible famine occurred a few years ago, and where thousands perished for want of food, the people are now growing opium to the production of opium instead of food grains. When food was short the people found they could not live on opium, so they turned to death."

"A parallel to the suffering during that famine is hardly equalled by any event in the history of the world. Human beings are in the streets of villages and on the roads. People turned cannibals. Some dug up roots, and others were found on the roadside, who had been hitting the black ope of the trees. The dead were not buried, for the living had all they could do to take care of themselves."

Now, today rice is one-third higher in price than it was a score of years ago, because the crop has fallen off. Opium shops are everywhere. You may be traveling with your chair coolie, when the first thing you know he will put you down and leave you sitting in the streets while he goes in to take a smoke."

SIX POINTS.

out of many, where Doctor Pierce's Pellets are better than other pills.

They're the smallest, and easiest to take—little, sugar-coated granules that every child takes readily.

2. They're perfectly easy in their action—no griping, no disturbance.

3. Their effects last. There's no reaction afterwards. They regulate or cleanse the system, according to size of dose.

4. They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

5. Put up in glass—are always fresh.

6. They cure Constipation, Indigestion, Bilious Attacks, Sick Headaches, and all derangements of the liver, stomach and bowels.

ASSUMING SHAPE.

The Associated Charities of Los Angeles.

Plans of the Organization Set Forth in Detail.

Text of the Report Submitted by the Committee.

Forms for Registration for Relief—Classes Who are Entitled to Assistance—The District Conferences.

The committee appointed at the recent meeting of representatives of the various benevolent organizations of the city to draft an outline of the plan of work of the Associated Charities of Los Angeles, met at the residence of C. Ducommun, on South Grand avenue, Saturday evening.

The report of the committee was presented as follows, and received the unqualified endorsement of those present:

THE CENTRAL REGISTRATION.

(a) There shall be a system of registration, for recording at a central office information in regard to all persons aided, and the assistance given by all public and private charities, and as far as possible, by individuals.

(b) The information thus obtained shall be communicated to other persons, but only for the benefit of the persons registered, and to aid in detecting the undeserving.

(c) The record thus obtained shall be made and kept by the secretary, and its contents shall be seen only by him or his clerks, except as provided for under the constitution or by-laws.

(d) Registration forms shall be distributed semi-annually to individuals and monthly to charities, the more active charities being constantly supplied with these forms and urged to report daily.

(e) These forms shall be collected as soon thereafter as possible after being left, and shall be immediately taken to the central office.

(f) FORM FOR REGISTRATION OF RELIEF.

Associated Charities of Los Angeles, Central Office, Bureau of Charities—Form for the registration of relief.

You are earnestly requested to fill the following information in the form thus received which is disclosed only for the benefit of the person registered, or to aid in detecting impostors.

The registration of private, as well as public charity, is absolutely necessary in order to check impostors, overlapping and other abuses, as well as for the welfare of the thrifty poor and the best interests of our citizens at large:

(a) Name of person receiving relief, residence of same, name of person giving relief, residence of same.

(b) The amount and kind of relief, fuel, clothing, food, money and from what sources? How often given? How long will it be continued?

(c) Has the case been investigated, and by whom?

(d) If by you, please write out briefly on the back of this form the results as to character, resources, number of family, sex and age of each, capacity for work, church or school attendance, place of birth, color, settlement and any other useful facts known.

(e) Do you consider that this case is receiving all the relief necessary and advisable?

(f) Do you guarantee that this case, besides being investigated, will also be frequently and properly visited (during the year) with a view to the influence and encouragement, independent of giving donations?

(g) If this question is not answered in the affirmative a visitor will be supplied.

(h) The secretary shall copy on cards and arrange alphabetically the names of cases, adding all the facts reported.

(i) He shall report immediately all instances of overlapping, to the proper officers of the district conference for the district in which the case is reported.

(j) He shall send a full report of any case asked for by any proper person, or society, that states that they have been applied to for relief by that case. However, should the report of such a case answer questions "a" and "b" in the affirmative, then shall the secretary merely answer that such a person needs no aid, and he shall inform the person, or society, having charge of the case, that the inquiry has been made, and by whom.

(k) The secretary shall each week send a copy of all reports of new cases in which "r" is not answered in the affirmative to the proper officers of the district conference for the district in which the case is reported.

(l) The secretary shall keep, through their secretaries, a list of the visitors, with the address of the visitor and the name and residence of the case assigned to each.

(m) Each district conference shall be composed, as provided for in the constitution, and shall be governed by an Executive Committee. The Executive Committee shall send to the central office lists in their respective wards, with whom forms should be left for registration. They shall have every charity and persons to register, who are reported from the central office as failing to register.

(n) The district conferences shall give no money, or its equivalent, in charity. (o) They shall solicit volunteer visitors, and distribute the cases reported to them from the central office among suitable visitors.

(p) They shall keep, through their secretaries, a list of the visitors, with the address of the visitor and the name and residence of the case assigned to each.

(q) Each visitor shall act in concert, as far as possible, with the person or society having charge of the case. (r) They shall have every visitor sign a paper, promising to give no money, or its equivalent, except in cases of absolute and immediate suffering, and then only on consultation with their committee.

(s) The secretary of the district conference shall notify any visitor, not having reported for three weeks, to report either in writing or in person. Should that notice fail to produce its effect in a week, another shall be sent, and if there is no answer to that, then shall a new visitor be appointed.

(t) For this purpose, the secretaries shall minute the date of each report of the visitors on their lists of visitors.

(u) In case of any sickness in a family to be visited, the visitor must report the case directly to the city physician before any further visiting.

(v) The district conferences shall re-

port or have reported to the central office all facts coming to their notice, which are subjects of registration.

(w) No subscriptions shall be solicited, or plan involving the expenditure of money adopted, without the approval of the board of directors.

(x) The main work of conferences—to study how men and women, boys and girls, may be best aided to become independent; to find a visitor to establish friendly relations, with every needy family in their district.

Knowledge and power to help in this way can be gained only by close study. It is worth a weekly meeting in every ward. A steady way and means is needed to make charity effective.

CASES OF WORTHY RELIEF.

(a) The conference shall, as far as possible, classify all cases as they arise, under the following general plan:

PERMANENT.

(a) Orphans with no parents, or only one parent, unable to support them.

(b) Aged persons who are unable to support themselves.

(c) Incurable sick, crippled or deformed.

TEMPORARY.

(a) Temporary illness or accident, where relief may carry a family over a hard time, and prevent their falling into pauperism.

CASES NEEDING WORK.

(a) Persons out of work, but able and willing if it can be found.

(b) Persons with insufficient work, able and willing to do more.

(c) Widows with young children, ready to do any kind of work consistent with family cares.

(d) The shiftless, who are disposed to shirk work, but who may be induced by patient persuasion and influence of visitor to become industrious; the improvident, who may be taught thrift and foresight by the same means; and the indolent, who are not yet hopelessly so, and may be reformed by earnest and devoted endeavor, and a hope of work contingent on good conduct.

CASES UNWORTHY OF RELIEF.

(a) Those who have property.

(b) Families with able-bodied parents, able to support them, or with adult able-bodied children able to support them.

(c) The shiftless, who are too idle to work, and who steadily refuse it when offered.

(d) The improvident who squander their means, earning good wages in some months and willing to beg in other months, and who are persistent in refusing to improve.

(e) The vicious, who drink or gamble away their means, and who are found hopelessly bad after attempts to reform.

(f) Confirmed paupers, who prefer to live on alms.

(g) Tramps, living worthless lives, and too often thieves.

(h) For the first class, a friend should be found for each case, to relieve necessities and provide suitable assistance.

To the second class, the conference will send a visitor, whose business shall be to raise these persons into self-support.

To the third class, the conference will employ repressive measures, and offer the service of such visitors as can stimulate better ways of life.

THE NEXT MEETING.

A meeting to adopt the constitution and by-laws will be held at Pythian Hall, No. 1114 South Spring street, on Tuesday next, at 2 p.m. Officers and directors will be elected, and a corporation formed as soon thereafter as possible.

The total membership of the League of American Wheelmen is reported to be 35,469; a gain of 4561 within the year. Massachusetts is first, with a membership of 6119; a gain of 1593; Pennsylvania second, with 4335, a gain of 978; and New York third, with 4303, a gain of 244.

CREDITORS' SALE!

When Sheriff J. C. Cline sold the stock of the

CITY OF PARIS

Dry Goods Store for the benefit of Creditors, it was announced that the Creditors, in order to realize Cash, would sell the large and finely assorted stock way below the original cost of manufacture. Some, a very few, took exception and questioned the statement. Since the beginning of this sale all doubts have been dispelled and nearly every lady in the county will bear testimony to the truth of the proposition that all goods were sold for less than they have ever been heretofore in this State. The fact is that goods have not brought more than

Sheriff Sale Prices.

Everybody knows what that means. The balance of this stock will be sold for even less. It **MUST** be sold and Cash realized. This is not a stock of goods that has been lying in a warehouse for many months, thereby becoming almost worthless, and at the same time bringing less than one thousand dollars for the entire lot of old style, moth-eaten trash which some concern may try to foist on this community.

The stock of the CITY OF PARIS consists of the largest and finest assortment of first-class Novelties and Staple Dry Goods in Los Angeles. Please remember this. By purchasing at this Creditors' Sale you save from 40 to 75 per cent. in good hard cash. You get first-class, seasonable goods. If you have not yet purchased, "ask your neighbor who has."

In House Furnishing Goods

Look at Blankets, Comforts, Window Shades, Serims, Down Pillows, Table Covers, Bed Spreads, Table Linen, Napkins, Towels, Sheetings, Muslins, Prints, Gingham, Flannels, Lace Curtains, etc. See the "Novelty Dress Pattern Suits," the very latest importations from Europe, and some of the finest that were manufactured for the Fall and Winter of '93 and '94. At this sale you can buy two suits at about the same price you would have to pay others for one. Seeing is believing. In plain weaves, Serges, Henriettas, Hop Sacking and Cashmeres, this stock is complete in all shades and qualities. Every yard will be sold for less than import price; make comparisons with others.

Be sure and look through the following line of Silks, Crystal, China, Japanese, plain and changeable Surahs and Bengalines, Satin Duchesse, plain Satin and Fancy Novelty Silks; the verdict will be: "This is the Finest and Most Complete Line of Silks in the City." And prices that no other house in California will duplicate, the reason is the creditors.

Must Have the Cash,

And will sell all the goods for less money than others can purchase them at. The financial misfortunes of the CITY OF PARIS DRY GOODS STORE have put money, dollars and cents, into the pockets of the purchasing public.

Every dollar's worth of goods in this immense establishment must be sold. Bring your

CASH,

and you can get \$2 in goods for every \$1 in money.

A lamp exploded yesterday morning at 2 o'clock in a house at No. 530 Eleventh street, producing a small blaze. The family had retired, leaving the lamp burning, when it exploded at the time mentioned, setting fire to the dining-room furniture and carpets. The flames were easily extinguished, with the help of the neighbors, before much damage was done.

News was received in this city yesterday of the death of Bertram Hancock, aged 16 years, youngest son of Mrs. Ida Hancock of the Brea ranch, of typhoid fever, in San Francisco, Saturday. Young Hancock had been to the World's Fair with his mother, and was on his way home when he was taken ill. The body will probably be brought to this city for burial.

It was reported yesterday that Mohr, the man who pawned his watch and then told a long story to the police about being robbed, had left town. The landlord at whose house he had been staying missed him in the forenoon, and stated that he believed that Mohr had taken himself off, as his trunk was not in his room as usual, and he had not made his appearance about the premises since Saturday.

The Press Club has now become fairly well settled in the Turnverein building, on Spring street, nearly all of the rooms having been comfortably fitted up and a telephone and other conveniences added. Assemblyman C. G. Dodge and wife of Oakland were in the city yesterday en route from the World's Fair to their home. Mr. Dodge was one of the prominent anti-monopoly Republican members of the last Legislature, and in the joint convention for the election of United States Senator was accorded the honor of nominating ex-senator Perkins for that position. It is well-known the honor at that time was an empty one, but the subsequent appointment by Gov. Markham of Mr. Dodge's favorite candidate makes the Assemblyman's action of more than ordinary interest at the present time. Mr. Dodge is a forceful speaker and debate, and will be a candidate for re-election in his district.

ORANGE, LEMON AND OLIVE LAND.

And Orange and Lemon Trees on Five and Ten Years' Time.

This land is located at Mentone, and Redlands, and includes a water right to each ten-acre tract. Mentone lands grow the finest fruits, of nearly all kinds, grown in the world. Some of this winter's orange crop is already sold at \$3.50 per box, and some sold last spring at \$4 per box from trees planted only four years. Choice pieces can still be bought at \$2.50 to \$3.00 per acre. I will furnish the latest trees in the market. Have choice land one mile from center of Redlands, only \$150 cash, payment down and no further payment for ten years, at 6% per cent. interest. I have the sale of three choice groves at Mentone, four at Crampton and six at Redlands, all in bearing, at prices ranging from \$50 to \$1000 per acre, according to age and location.

If you want pure water, pure air, good train service on two railroads, good society, cheap ice, electric lights in your house as cheap as tallow candles, go to Mentone, where a case of malaria, rheumatism, asthma or throat trouble is never seen, except in print. For further particulars apply to W. P. McIntosh, general agent, No. 144 South Main street, Los Angeles, Cal.

THE FIRE ALARM.

Suggestions for Its Improvement by the City Electrician.

What is Necessary to Put the System in Proper Condition for Any and All Possible Emergencies.

The Supply Committee of the City Council will report at today's meeting of that body, recommending that the City Clerk advertise for bids for certain additional appliances for the fire alarm system, in accordance with the recommendation of the city electrician at a recent meeting of the Fire Commission, and which recommendation was approved by that commission.

In order that the general public may understand the need of these additional appliances, a partial description of the fire alarm system is here given.

All the fire alarm boxes in the city are at present on four circuits, or wires, each one of which runs from the City Hall to one and another of its boxes, and then returns to the City Hall.

What is known as the south end circuit, carries all the boxes south of Third street, and is about thirteen miles in length. The Temple-street circuit takes in all the boxes north of Third street and west of Main street, and is about five and one-half miles in length. The East Side circuit carries the boxes along and east of Main street, and north of Aliso street. It is about eight and three-quarter miles in length. The Boyle Heights circuit is about eight miles long, and on it are placed the boxes of Aliso street. It is about eight and three-quarter miles in length. The Boyle Heights circuit is about eight miles long, and on it are placed the boxes of Aliso street. It is about eight and three-quarter miles in length.

The Boyle Heights circuit is about eight miles long, and on it are placed the boxes of Aliso street. It is about eight and three-quarter miles in length. The Boyle Heights circuit is about eight miles long, and on it are placed the boxes of Aliso street. It is about eight and three-quarter miles in length.

In order that the system may work well, it is necessary that the various circuits should be so arranged as to be entirely disconnected with the ground; that is, so that there can be no electrical connection between the circuit and the ground.

The system may work well during the summer season when everything is dry, but during the wet weather each wet branch of a tree that sways against the wire tends to, as it were, draw some of the force of the current to the ground. A sufficient number of wet branches swinging against the wire may so materially weaken the force of the current that should any one attempt to turn in an alarm from any box on that circuit there might not be sufficient force remaining in the current to act on the magnets and tap the bell.

Again, with a circuit thirteen miles in length, a broken wire on the same will be less likely to locate a break, and would also be less likely to be restored. If this circuit were divided into two or three shorter ones there would be less danger of locating a break, and would also be less likely to be restored.

With shorter circuits there would naturally be less leakage by reason of ground connections, as above spoken of.

In order to shorten some of the present circuits by making more of them, it would be necessary to locate some additional appliances at the City Hall, in the way of a larger switchboard, some instruments for testing the strength of the current, and a few other articles. Hence the recommendations of the city electrician.

Hours—9 to 8; Sunday, 10 to 12.

Today the holders of Southern baseball franchises meet for the purpose of organizing a Southern League at Chattanooga, Tenn.

The question to be settled is whether there shall be twelve or eight clubs in the new league, Birmingham, Nashville and Charleston having forfeited their franchises by desertion. It is believed, however, that ten clubs will compose the new league next season.

Things are moving with us. Our ladies' wrappers and gents' smoking jackets are being sold. Come and see our selections before the choice are gone. Our line of Japanese cotton rugs is complete, running in price from \$1.25 to \$35.00; in size from 2x3 feet to 12x15 feet.

SAFEST PLACE TO TRADE

The stock of the

"Bon Marche,"

E. R. Marcus, Proprietor,

Which the finest trade in Los Angeles will recollect as first being started at the Nadeau Hotel, later at 223 S. Broadway, and last at 122 S. Spring street, was sold to us last Saturday at public auction by J. C. Cline, the Sheriff of Los Angeles county. We purchased it for the benefit of the public, not for the benefit of the creditors of Mr. Marcus. We are here as public benefactors and do not pose as martyrs, neither did we pay our San Francisco creditors 90 cents on the dollar for merchandise that any responsible concern could buy at the fountain head for 80 cents, and try to humbug the good people of this burg by telling we could save them 40 to 75 per cent. over the price of any legitimate concern in this State. This failure, it is true, was not so bad, or the stock as large as some others that have occurred lately, neither was he as fortunate in being blessed with a wealthy father-in-law, or he, too, might, if he was silly enough, revel over his own business corpse.
